OFFICE OF THE SECRETARY, STORES PURCHASE COMMITTEE, "UNITED INDIA" BUILDING, BANGALORE.

Dated 21st July 1953.

To

The Firms dealing in Electrical Transformers.

Enquiry No. 11738.

Subject :—Supply of 4 Nos. Potential Transformers for Bangalore New Receiving Station and Shimoga.

Gentlemen,

No. S.P.C. 18563-602. Please be good enough to intimate your best prices and the earliest time of delivery for the materials described in the undermentioned schedule, in the form printed below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Potential Transformers" with the above enquiry number.

This enquiry will be closed on the 19th August 1953.

SCHEDULE.

Item No.	Description of material offered	Quantity	Price quoted F.O.R. Bangalore and Shimoga.	Time of Delivery
1.	Potential Transformers 110-KV/110-V 50-cycle, 3-phase, or 4 Single phase Transformers	Two *	...	...
2.	66-33-KV/110-V. 50-cycles Potential Transformers, 3-phase or 4 single phase Transformers.	Two *	...	...

DETAILED SPECIFICATIONS.

General :—These Transformers are to be used for potential indication and potential reference to various relays and meters on the 110-KV. busses at Bangalore and Shimoga and 66-33KV.

Climatic Conditions :—The Bangalore New Receiving station is situated at a height of about 3,500-ft. above sea level and Shimoga about 2,000-ft. above sea level. The temparature anges between 110°F and 45°F in shade in Bangalore and between 114°F and 60°F at Shimoga.

Rating and Class of Accuracy :—These potential transformers shall have a rating of 500-volt ampere burden—class accuracy.

Insulation Class :—The insulating material hall be A Class throughout without grading. The windings shall be effectively shielded against transient voltages to limit the insulation stresses to safe limits.

Current limiting resistances and Fusible Disconnects :—The bus will have a short circuit capacity of 750 M.V.A. The current limiting resistances shall be suitable to limit the currents to safe values for the transformers. The limiting resistances and the fusible disconnects shall also be supplied with the transformers.

Oil and insulating materials :—The oil used in the transformer shall not deteriorate due to the presence of the insulating materials and varnishes used for continued periods of time.
